# Sumy Visitors' Programme

22nd July - 2nd August  
2010

## Reasons for continuing our link with Sumy parish:

- We heed the Pope's request for western parishes to form supporting links with parishes in the former Soviet Union
- Our parish has taken on a responsibility towards the Sumy parish
- We also have taken on a responsibility to the children of the Sumy orphanages
- The Sumy parishioners feel that they depend on us for growth and support
- It is a practical way of helping them to feel part of the worldwide Catholic Church
- It challenges us to re-look at our Catholic faith in our own lives
- It deepens our faith by exposing us to the trials and difficulties of "the early Church"
- We share our faith through personal contacts and friendship, and learn how they are rebuilding the Church in Ukraine
- We share our parish 'best practices' with Sumy e.g. Guided Prayer, Children's Masses
- It is a focus for involvement of large numbers of our parishioners
- It provides opportunities for Personal Development and growth for our parishioners
- It helps us to reassess priorities in our own lives
